

CAPITAL PROJECTS SANTA ROSA JUNIOR COLLEGE

Beautiful new Bailey Field House will be turned over to the Athletics Department in June, but first —
Bailey Field set the stage for SRJC's 2022 Commencement

Finishing touches to the new Bailey Field House are taking place, and the building will be turned over to the Kinesiology, Athletics and Dance (KAD) Department in early June. The Field House is located at the south end of Bailey Field and contains locker rooms for football, and women's and men's track and field. The coaches' offices are located on the upper level, along with an outdoor roof terrace.

Other work in Phase 2 of the KAD Renovations Projects included new bleachers with a press box on the west side of Bailey Field, new baseball, soccer and softball fields. Renovations and new construction to the Quinn Aquatics Center, included repairing, resealing and recoating the indoor pool, which is now named after SRJC Coach Bob Miyashiro, after a generous endowment to help the swim program. A new coaches' area, named after David C. Salo, Ph.D. (SRJC '78), and the creation of the new sparkling blue 50-meter pool, The Kathryn J.Kettler Pool, also honor the generosity of donors to the program.

June 13 - Summer Classes Begin

June 23 - KAD Projects Ribbon Cutting and Pool Dedication Ceremony

—continued on page 2

KAD Projects —continued from page 1

Phase 1 included the football field and track, completed in time for the 2020-2021 academic year.

This year's graduation took place on May 28 at Bailey Field., where students, family, staff and faculty enjoyed the sparkling new amenities—a stage worthy of the SRJC graduates. On June 23, the District will host a ribbon cutting and pool dedication ceremony. Coach-led tours will be available, and coaches will be happy to answer questions about how the new fields and facilities will enhance the athletics program. Dr. David Salo, who recently retired from coaching USC swimming, coached the 2012 London Olympic Swim Team, will be the keynote speaker during the ceremony. Dr. Salo, SRJC Class of '78, started his swimming career when coached by Bob Miyashiro while a student at SRJC.

"We expect a large turnout for this event," said Head Swim Coach Jill McCormick and one of the event planners. "SRJC and Bear Cub Athletics are thrilled to bring this state of the art facility online and our surrounding community is excited to celebrate equitable access to this pool. They will turn out in full force to celebrate the launching of new era for Santa Rosa aquatics."

Kinesiology, Athletics & Dance (KAD) Projects Steering Committee

Matt Markovich, KAD Dean
Lenny Wagner, Department Chair / Head Football Coach
Lacy Campbell, Head Women's Basketball Coach
Crystal Chaidez, Head Women's Soccer Coach
Marty Kinahan, Head Men's Soccer Coach
Jill McCormick, Head Swim and Dive Coach
Damon Neidlinger, Head Baseball Coach
Justin Weaver, Equipment Manager
David Wellman, Head Cross Country Track & Field Coach

The SRJC Student Housing Project

Aerial view captures the tremendous progress underway

Aerial view captures tremendous progress underway at the SRJC Student Housing Project construction site, located at the southeast corner of Elliott Avenue and Armory Drive.

The new 95,218 square foot building will open in Fall 2023 and provide safe, new, below market rate accommodations for approximately 352 students.

Also captured in the photo, work at the new SRJC Foundation Offices to the left. The recently completed 50-meter pool is visible in the top right corner. All of these projects include sustainability features that will help the district meet its net zero energy by 2030 goals.

New buildings at Shone Farm enhance one of the country's best agricultural programs

SANTA ROSA JUNIOR COLLEGE

The SRJC Petaluma Construction Center design documents have received comments from the California Division of the State Architect (DSA). All school construction projects must be approved by DSA. Anticipated project approval is mid-June.

Outdoor WiFi Project is now complete at SRJC Petaluma and at the Public Safety Training Center in Windsor—

Installation underway at Santa Rosa, Shone Farm, and the Southwest Center

The Outdoor WiFi Project installation is complete at two campuses, SRJC Petaluma and the Public Safety Training Center in Windsor. Installations are underway at Santa Rosa, Shone Farm, and the Southwest Center. This district-wide project is scheduled for mid-June and will improve connectivity and open up outdoor Internet access to enhance safe learning environments for students and staff. Installation design is elegant and functional.

Photos, clockwise: Equipment installed on the exterior of SRJC's Herold Mahoney Library; beautiful new mural at Our House at SRJC Petaluma, incorporating color elements to minimize and blend the WiFi equipment; installation at the PSTC means strong, reliable connectivity, especially when most needed.

MEET THE SRJC CAPITAL PROJECTS TEAM: CATHY GOTFRID, PROJECT ENGINEER (JGM, Inc.)

Cathy Gotfrid and her younger sister grew up as beach babies in Northern San Diego County. Cathy loved living so close to the ocean, and being on the beaches of Southern California still feels like a homecoming with every visit.

Cathy's environs changed the year she turned fourteen, and her family moved to the Peninsula in Northern California for a job opportunity. It was hard enrolling in a new school mid-year, and Cathy missed being near her large, extended family. "Before the move, there were always lots of grandparents, aunts, uncles, and cousins nearby. After the move, there was a loss of those familial connections, which I regret," said Cathy, "especially for my daughters."

On the plus side, Cathy is grateful for coming of age in this part of the state. "I've found it easier to make more meaningful person-to-person connections in Northern California. And, I find it more beautiful here."

Cathy loves Northern California's natural beauty and its rolling hills. "I love the abundance of the environment here," she said, comparing this part of the state to Southern California's more desert-like natural landscape. "Even when the hills aren't green, the gold is filled with lovely trees. On campus right now, everything is blooming. Birds are chirping, hummingbirds flitting, and so many crazy squirrels!"

Cathy has lived in Santa Rosa for twenty-eight years, as she and her family moved here in 1994. "My youngest daughter was born here," Cathy said, who found Sonoma County an ideal place to raise her three daughters. Cathy and her daughters were active in Girl Scouts and soccer as they were growing up. While there are many benefits to playing team sports, one unexpected benefit happened when Cathy's middle daughter Allison joined a soccer team while in junior high. She gained a stepsister when Cathy met the father of a new teammate, Taylor.

"All four daughters are smarty-pants," Cathy proudly said. Eldest daughter Nicole has a PhD in Human Development and has just accepted an offer from Washington State University - Pullman. Middle daughter Allison is a PhD candidate in Sociology at UC, Berkeley, stepdaughter Taylor has recently

completed her second Master's degree at University of Washington, Seattle, and Sara, the youngest, is a PhD candidate at John Hopkins University. She also has a brilliant one-year-old granddaughter, Mia.

Cathy, who found herself working in the construction management field by accident, enjoys what she does. While working temp jobs as a side gig, she took a position at Quattrocchi Kwok Architects (the architectural firm involved with the development of the SRJC 2016 Facilities Master Plan), and it opened up a new world for her. Cathy found herself enrolling in classes and taking on more complex work. She recently completed the Construction Management Program at Sonoma State University while working full-time in construction administration.

"I have an affinity for construction management," Cathy said, who believes that her attention to detail and focus on good communication are two strengths she brings to the workplace. "I also have a sense of fairness," she said. "I want to find the best solutions to problems in order to go for the win/win/win."

Like her smarty-pants daughters, Cathy is committed to learning. She is planning to take courses in mathematics at SRJC in the near future. "I like math because it is so logical," Cathy said, "and I also want to learn how to calculate the square footage of a sloped surface."

Some of Cathy's other interests include reading, word games, cooking, and gardening, and the connection between farm to table. She went through the Sonoma County Master Garden Program, which provided her first exposure to Shone Farm. Cathy and her husband have a food garden, seven citrus trees, two fig trees, one persimmon tree, one pomegranate tree and three chickens on their 7,000 square foot suburban lot.

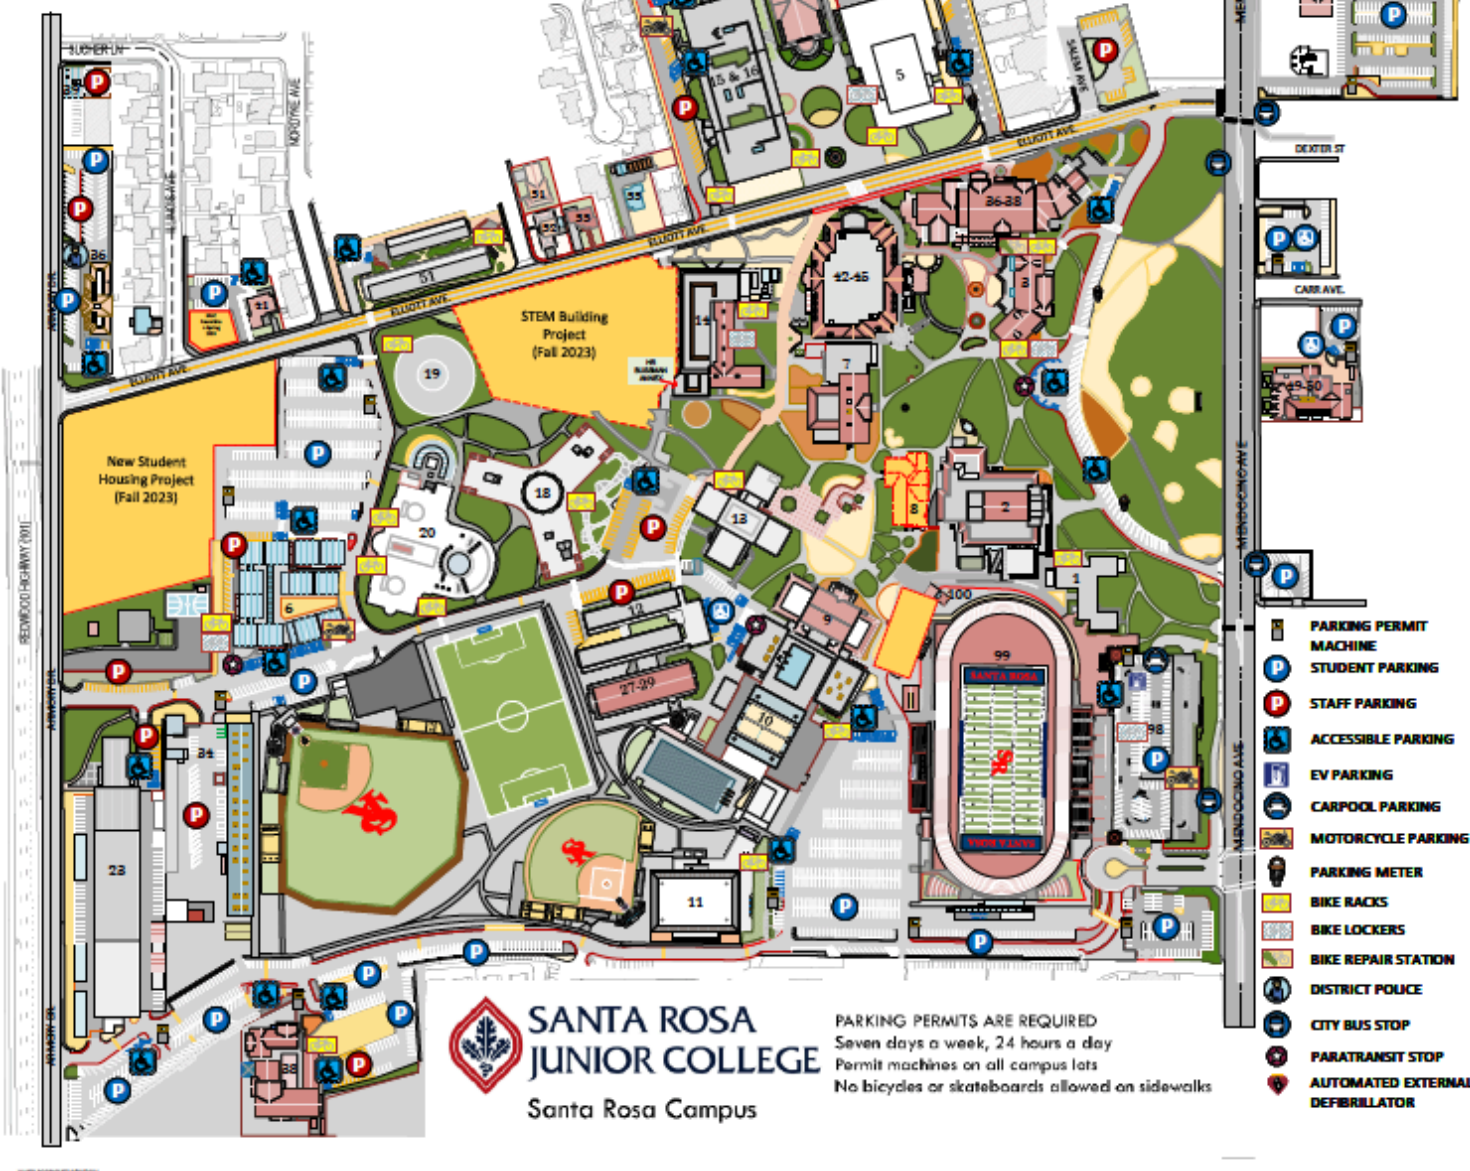

"Gardening gives us a tiny bit of control over what and how we eat," said Cathy.

Much of Cathy's philosophy goes back to her and her daughters' involvement in Girl Scouts and the pledge to have a well-rounded life, including doing one's best "to be honest and fair, friendly and helpful, considerate and caring, courageous and strong....to use resources wisely [and] make the world a better place."

"Take me to the Farm!" Trips to Shone Farm is one of the best perks of her job, Cathy Gotfrid says.
